

Revoicing

- So, the way you thought about this was to say...
- You just said your thinking is...
- Let me see if I understand by repeating what you said...
- So, to repeat what you just said...

Restating

- I'm going to say what just said in my own words...
- What is another way of saying what I just said?
- Another way to say that same thing is...
- My way of saying what you said is...

Agree / disagree

- So why do you agree / disagree with that thinking?
- How do you agree / disagree with that idea?
- Why are you agreeing / disagreeing?
- How do others agree with that idea?

Reasoning

- So why do we think this?
- How could we convince someone even further?
- Why does that make sense right now?
- Why do others have different answers?
- Can you explain further?

Adding on

- How can we add onto what you just said?
- Can we add more to our explanation?
- We can elaborate by adding...
- What is more we can say here?

Wait time

- It's okay, I am giving us some wait time to think
- Do we need some time to think here?
- Let's just stop and pause for a bit here to think...
- Let's stop and think for ourselves first...
- Wait time gives us time to think

Clarifying

- Hang on! What did you mean there?
- Can you explain that again for me please?
- What did you mean when you said...?
- I am not following your thinking. Can you explain again?
